

CV / Résumé

Dr. Jeff Goodall

PROFILE

Jeff Goodall is an independent Oil & Energy Professional with 24 years international experience.

Jeff is primarily a Straigrapher and a Geologist. Jeff is also Managing Director at Morgan Goodall Paleo Pty, Ltd. who provide extensive Palynological services to the oil & gas industry in Australasia.

Dual British/Australian nationality

Base Adelaide, Perth, PNG

EXPERIENCE

2010 - Present - Managing Director at Morgan Goodall Paleo Pty Ltd.,

Independent geological consultant, specialising in biostratigraphy (office and wellsite), sequence stratigraphy, and exploration geology. Facies prediction, seismic facies modelling, prospect evaluation (reservoir seal risk).

Prior to 2010

Santos Ltd. Adelaide, Australia. Assignments in Biostratigraphy and Seismic sequence stratigraphy in Australia, SE Asia, USA and Egypt.

Exploration geologist Carnarvon Basin, Australia. Prospect generation, drilling.

Geological mentor, depositional modeller, seismic facies analysis, facies prediction, peer reviewer of prospects/leads (specifically reservoir/seal risk assessment) in both carbonates and siliciclastics.

Palynologist at Ichron Ltd and Geochem Group, UK.

SKILLS

Specialties: seismic sequence stratigraphy, palynology, biostratigraphy, geological modeling, sedimentology, exploration geology.

EDUCATION

Jeff has a PhD in Palynology, sequence stratigraphy from the University of London, MSc in Palynology from Sheffield Hallam University and a BSc in Geology from Kingston University, UK.
